Summary of Proposed Action (use additional sheet if necessary):
One of the most important components of any performance-based music degree are a series of private lessons with the instructor. These lessons are taken during each semester of pre-candidacy work for 2cr. each, with the final semester involving a public performance, which is taken for 4cr. In the original proposal for our three DMA conducting degrees we envisioned differing types of lessons and gave them distinct course numbers (621, 719, 815, 816). We also mistakenly required five, rather than four, semesters of lessons (the pre-candidacy portions of the degrees are all meant to be completed in two years). As we have run the degree, we have adjusted these lesson registrations to meet what our students are actually doing and now seek to formalize these adjustments as three semesters (at 2cr) of MUSC 719 and one semester (at 4cr) of MUSC 815.

Unit Code(s) (to be entered by the Office of Academic Planning and Programs):
1. Current Catalog Description of Program. Include any special admissions information.

The Doctor of Musical Arts degree requires the satisfactory completion of a significant body of coursework that, in the student's and Graduate Advisor's judgement, prepares the student for the preliminary examination that leads to admission to candidacy, as well as certain specific courses required in each area of specialization. A grade of B- or better is required in all courses used to fulfill requirements for the degree. A dissertation (whether written, or in project form) is required for all doctoral degrees in music. A principal advisor for the dissertation will be chosen by the student and the academic advisor; the principal advisor and the student will then nominate the remaining members of the dissertation committee. The student must submit a detailed prospectus of the dissertation to the members of the dissertation committee and the graduate director, and must be admitted to candidacy prior to the approval of the dissertation committee by the Graduate School. The dissertation must be successfully defended before the entire dissertation committee. The Doctor of Musical Arts degree requires a Written Dissertation, a Recording Project, a Performance Project, or a Musical Composition. Some Doctoral of Musical Arts degrees have an option of a Written Disse dissertation or a Performance Dissertation.

Admission to the graduate degree programs in music is highly selective. It is determined primarily by a performance audition, tapes and scores of original compositions, scholarly research papers, letters of recommendation, and/or successful teaching experience; additionally, in some academic areas, the general GRE scores are considered. All non-native English-speaking students must achieve a score of 575/233/100 on the TOEFL to be invited for audition/admission (see the School of Music's admission website for detailed English language requirements).

As these changes affect only the PERFORMANCE, PRINCIPAL MEDIUM portion of the degree, only that section is shown below. The same change is being sought in all three of our DMA Conducting degrees.
